## SCALE OF FINANCE FOR FY 2023-24

### Message

Himachal Pradesh is predominantly an agriculture state providing direct employment to 70 % of populace of the state. At present the agriculture contributes 13.62 % of total GDP of the State. Similarly, Horticulture also functions with the objective of building a prosperous Himachal through scientific development of Horticulture by harnessing the national climate conditions for the development of sustainable system of horticulture in the hilly areas. The Govt. of Himachal Pradesh is also committed to strengthen the agricultural allied activities in fields of animal husbandry and fisheries by launching new schemes to improve the economic position of the rural areas in the State.

**Rakesh Kanwar, IAS**  
**Secretary Agriculture-cum-**  
**Chairman SLTC**

As you are aware that ‘Scale of Finance’, a measure of loans permissible per acre per crop, was varying across districts of state, causing confusion, which must have been rationalized. Taking the Vision of fixation of Adequate, Equal, Transparent and Scientific Scale of Finance into mind, this attempt by the State Level Technical Committee to harmonize the Scale of Finance for Agricultural and Horticultural crop loans and the Working Capital loans for Animal Husbandry and Fisheries sector for FY 2023-24, is just a small step towards reform in Agriculture Credit system thorough “**One State One Scale of Finance**” but it can be a giant leap for simplifying and rationalizing credit delivery for our hard-working farmer friends and can go a long way in increasing their income.

## SCALE OF FINANCE FOR FY 2023-24

### Message

The Himachal Pradesh State Cooperative Bank Ltd. is an Apex bank of the State of Himachal Pradesh and has became household name for range of financial services could it be deposit or credit. The Bank is a fast growing listed Scheduled Bank with presence of 217 branches and 23 extension counters spread across 6 districts of the State serving 16.14 lakh customers. The Bank is working with an aim to service all classes of society at most attractive form with personalized services and sense of accountability, with use of latest technological facilities for any where any time banking and also serving the populace with Door step Banking by engaging Co-op Societies as Deposit Mobilization Agents (DMAs).

Being Convener of the State Level Technical Committee for fixation of Scale of Finance for Agricultural and Horticultural crop loans and the Working Capital loans for Animal Husbandry and Fisheries sector for State of Himachal Pradesh having sizable population directly dependent on Agricultural and horticulture for livelihood was both an honour and also a challenge, keeping in view the huge inter district disparities in existing scale of finance.

My special gratitude to Sh. Rakesh Kanwar, IAS, Secretary (Agriculture) to GOHP, Sh. Sudhanshu Mishra CGM NABARD, HPRO Shimla, Secretary (Fisheries) to GOHP, Secretary (Cooperation) to GOHP, Secretary (Animal Hunbandry) to GOHP, Director of Agriculture HP, Director of Horticulture HP, Vice Chancellor CSKHP Krishi Vishvavidalaya, Palampur, Vice Chancellor Dr. Y.S. Parmar University of Horticulture and Forestry Solan, UCO Bank-Convenor SLBC HP, for their relentless efforts and helping the committee move towards with a scientific approach for fixation of "**One State One Scale of Finance**" based upon Input cost and simultaneously bridging the gap of wide variations among districts in the Scale of Finance over past many years. The Scale of Finance for FY 2023-24 is hereby notified by the SLTC with a commitment to make continuous efforts for ensuring Adequate, Equal, Transparent and timely credit facility to Agriculturists, Horticulturists and farmers involved in activities related to Animal Husbandry and Fisheries.

## SCALE OF FINANCE FOR FY 2023-24

### Proceedings of the Meeting of State Level Technical Committee (SLTC) held on 12.01.2023

The SLTC previously in its meeting held on 28.03.2022, while considering the proposals received from DLTC's for Fixation of Scale of Finance for FY 2022-23 observed that there was wide variation in fixing Scale of Finance for same crop in similar agro-climatic zones of the state and unreasonable / unjustified hike was also given over previous scale of finance in some crops in most of the districts. The actual cost of cultivation is not worked out while fixation of scale of finance, an increase of 5% to 10% is considered while recommending Scale of Finance every year. Therefore, the committee did not approve the proposed Scale of Finance received from DLTC and rather decided that the Scale of Finance fixed by SLTC for FY 2021-22 shall continue to prevail in FY 2022-23 and in the meanwhile the departments having expertise in the related field i.e the Agriculture University Palampur, Horticulture & Forestry University Solan, Animal Husbandry and Fisheries Department shall make the economic assessment and matrix of actual cost of production of crops/units relating to their fields. In respect of agriculture and horticulture crops, separate matrix of actual cost of production shall be prescribed for irrigated and un-irrigated crops and organic farming. The State Agriculture Department shall act as nodal department in this regard and shall collect the matrix of actual cost of production from all concerned quarters as mentioned above and shall compile and share the same.

Previously Bank had received letter no राबैंक. हिप्र. क्षे. का./829/ एसओएफ-09/2022-23 dated 02.09.2022 from NABARD Regional Office informing that Govt. of India has set up a Working Group on Agri Value Chain Financing (AVCF). In one of the meetings, the committee was of the opinion that as "MSP is an output price is common across the country, there is sufficient rationale to move towards "One State One Scale of finance". NABARD HPRO has requested the Bank to offer comments on: "One State-One Scale of Finance" to help them frame draft guidelines on same.

A meeting of SLTC was held on 07.10.2022 to discuss the topic "One State One Scale of finance" wherein the committee observed that the existing Scale of Finance for same crops in different or even similar agro-climatic zones of the state have wide difference. Taking cognizance of wide variation in fixing Scale of Finance for same crop in similar agro-climatic zones of the state and unreasonable / unjustified hike given over previous scale of finance in some crops in most of the districts, the experts from the related fields opined that the input cost for growing similar crop in different agro climatic zones is more or less the same and the agro climatic zone has little rationale on output / production. There is sufficient reason to move ahead towards fixation of scale of finance on the basis of input cost which is more scientific and objective approach and can eliminate the wide variation in fixation of scale of finance for crops and simultaneously can be step ahead towards "One State Once Scale of Finance". Therefore, the committee reiterated that the realistic cost of cultivation of crops which is very important for fixation of scale of finance shall be obtained from Chaudhary Sarwan Kumar Himachal Pradesh Krishi Vishvavidyalaya (CSKHPKV), Palampur Nauni and Dr. Yashwant Singh Parmar University of Horticulture and Forestry, Solan. The universities shall identify the crops according to agro climatic zones so that no crop grown in the state shall remain out of purview of Scale of Finance. The cost of cultivation shall be realistic and based upon the current / actual cost of all the factors of cost of cultivation for each crop.

The Bank has received letter no Agr.H(II)F(4)5/98-Vol-XV dated 21.11.2022 from Director of Agriculture thereby forwarding the following:-

- CSKHP Krishi Vishvavidalaya, Palampur:- Co-efficient of Cost of Cultivation for Agriculture crops prepared by the team of experts constituted for the purpose at University level and duly authenticated by the expert from Department of Agricultural Economics of the University.

## SCALE OF FINANCE FOR FY 2023-24

- Director of Horticulture:- Information regarding Scale of Finance for Horticulture Crops, Floriculture Crops and for Bee keeping activity.
- Director of Animal Husbandry:- Economic Assessment and Matrix of Actual Cost of Production of units in reference to Animal Husbandry Activity.
- Directorate of Fisheries:- Economic Assessment and Matrix of Actual Cost of Production of units in reference to Fisheries Activity.

The committee perused the existing scale of finance and cost of matrix received from the departments having expertise in the related field and observed, opined and proposed as under:-

**1.Agricultural Crops:-** Given the existing Scale of Finance and the Cost of input received from the CSKHP Krishi Vishvavidyalaya, Palampur , most of the crops like wheat, maize, gram, etc are under financed ad may need upward revision in the scale of finance. Simultaneously, there are few crops like Paddy, French beans, cabbage cauliflower, barley etc for which the existing scale of finance in most of the districts needs to be enhanced and in one or two districts needs to be reduced. Further, for few crops, like peas in Lahul & Spiti, Potatoes in Lahul & Spiti, Kinnaur and Shimla and Rajmah in Kinnaur, the existing Scale of Finance is proposed to be freezed till next instructions. Also, there were some exotic vegetables like icebergs, leak pak choi, cole crops grown in poly house, fodder crops like bajra, napier, sotgum, rye grass etc for which Cost of input was not available and the scale of finance for such crops has been proposed on the basis of existing Scale of Finance or in consultation with experts present in the meeting.

**2.Animal Husbandry Activities:-** The component wise cost of matrix for different activities received from Director of Animal Husbandry is decided to be proposed as Scale of Finance. The department has suggested Azolla farming as new activity. For few activities included in the proposed Scale of Finance, if there is an existing Unit Cost decided by NABARD in place, the unit cost suggested by NABARD shall prevail.

**3.Fisheries Activities:-** The component wise cost of matrix for different activities received from Directorate of Fisheries is decided to be proposed as Scale of Finance. The department has suggested input cost for New Grow out ponds, trout raceways, new rearing ponds, Biofloc Ponds and Small biofloc culture which are being proposed along with the construction cost of these activities. For few activities included in the proposed Scale of Finance, if there is an existing unit Cost decided by NABARD in place, the unit cost of NABARD shall prevail.

**4.Horticultural Activities:-** The matrix of cost received from the Director of Horticulture for Fruits is found to be made for Unit Cost i.e. the cost of plantation & Cultivation over the years including cost of land cleaning & development, Digging of Pits, Planting material, Planting & Support planting etc, whereas, the scale of finance is usually worked put for bearing trees. Also, the scale of Finance for mixed cropping pattern was also not available. Therefore, in consultation with the experts present in the meeting, the existing scale of finance for fruits (bearing trees) and mixed cropping pattern in model district, with little variation (if required), is being proposed as scale of Finance for rest of the state. The scale of finance for floriculture items, as received from the department is being proposed. In case of floriculture items wherever cost of input is not received, the existing scale of finance in model district is being proposed. There are many items under medicinal plants, flowers etc for which existing Scale of Finance was suggested by one or two districts only. For such crops, the existing Scale of Finance has been considered model Scale of Finance and is being proposed. For few activities included in the proposed Scale of Finance for floriculture and medicinal plants, if there is an existing Unit Cost decided by NABARD in place, the unit cost suggested by NABARD shall prevail.

## SCALE OF FINANCE FOR FY 2023-24

After discussion on the above, in order to ensure uniformity in fixing of scale of finance in future, following decisions were taken by the State Level Technical Committee :-

- As the SLTC is a higher authority to approve the Scale of Finance recommended by the DLTC's and during past one year SLTC has carried out detailed exercise on rationalizing the Scale of Finance on the basis of cost of input and other factors, simultaneously ensuring that no unreasonable hike or decline is given in any of the item.

The Scale of Finance worked out by the SLTC in the present meeting attended by the experts from related field from CSKHP Krishi Vishvavidalaya, Palampur, Horticulture & Forestry University, Solan, Directorate of Agriculture, Directorate of Horticulture, Fisheries Department, District Manager, HPStCB Shimla, District Manager, HPStCB Bilaspur, District Development Manager, NABARD District Bilaspur & Hamirpur and District Development Manager, NABARD District Shimla on the basis of input cost and other factors as elaborated under observations part above shall be considered approved by the SLTC to be implemented by DLTC's for FY 2023-24. In case of activities where the Unit cost is decided by the NABARD, the unit cost of NABARD shall prevail.

- The Working Capital Loans under Animal Husbandry and farm and Fisheries activities shall be based upon the Detailed Project Report.
- For some of the activities for which Scale of Finance from the DLTC's was not proposed while recommending Scale of Finance in previous years, the DLTC's may consider the scale of finance of the adjoining districts in case these activities are carried out in their District.

- From FY 2024-25, any other activities carried out in the District or any component of Unit based activities, if not considered in the proposed Scale of Finance by SLTC for FY 2023-24, may be added into the Scale of Finance by the DLTC.
- For FY 2024-25, while recommending the Scale of Finance to SLTC, in case any changes in the Scale of Finance need to be carried out, same shall be informed to the SLTC duly supported with the actual matrix of cost. Further, the crops / flowers requiring separate Scale of Finance for open and protected cultivation, while recommending scale of finance proper distinction shall be made between type of cultivation and for protected cultivation (Cultivation in Poly House / Green House) the cost of poly house, if included in the proposed Scale of Finance, shall be separately mentioned.
- Any other developments in the fixation of Scale of Finance may be informed separately by SLTC.

## SCALE OF FINANCE FOR FY 2023-24

### Key Points

- The activities for which Scale of Finance from the DLTC's was not proposed while recommending Scale of Finance in previous years, the DLTC's may consider the scale of finance of the adjoining districts in case these activities are carried out in their District.
- For fixation of Scale of Finance for FY 2024-25 onwards, the instructions of NABARD's Circular No. 109/Re-finance-34/2020 dated 15.04.2020 may be followed.
- From FY 2024-25, any other activities carried out in the District or any component of Unit based activities, if not considered in the proposed Scale of Finance by SLTC for FY 2023-24, may be added into the Scale of Finance by the DLTC.
- For FY 2024-25, while recommending the Scale of Finance to SLTC, in case any changes in the Scale of Finance need to be carried out, same shall be informed to the SLTC duly supported with the actual matrix of cost. Further, the crops / flowers requiring separate Scale of Finance for open and protected cultivation, while recommending scale of finance proper distinction shall be made between type of cultivation and for protected cultivation (Cultivation in Poly House / Green House) the cost of poly house, if included in the proposed Scale of Finance, shall be separately mentioned.
- The Working Capital Loans under Animal Husbandry and farm and Fisheries activities shall be based upon the Detailed Project Report.
